

Job Title: Data Analyst

Location: Meerut

Job Type: Full Time

Sai Computers Limited (SCL) is a leading consulting firm specializing in the power sector, providing innovative solutions and strategic insights to clients across different utilities in India. At SCL, with a steadfast commitment to innovation and excellence and a commitment to leverage data-driven approaches we differentiate ourselves through our relentless pursuit of excellence and our unwavering dedication to our clients' success. With more than 40 years of experience, offices in 100+ cities, our 2500+ team members of industry experts, data scientists, and engineers and field executives work tirelessly to develop and deploy innovative solutions to empower energy companies, utilities, and policymakers to navigate the complexities of the modern energy landscape with confidence and clarity.

SCL Focus areas are:

- Input Based Distribution Franchisee
- Advanced Analytics
- Digital Products
- Operations

Role Description:

We are seeking a highly motivated and detail-oriented **Data Analyst** to join our growing team. This role will support the data-driven decision-making process by collecting, analyzing, and interpreting operational and business data. The ideal candidate has 2+ years of experience, preferably in the power sector, and is passionate about using data to drive operational excellence and strategic insights.

You will work closely with cross-functional teams to ensure data accuracy, build insightful reports and dashboards, and assist in uncovering trends that impact business outcomes.

Selected candidate's day-to-day responsibilities include:

- Collect, clean, and organize large datasets from various internal and external sources.
- Conduct exploratory data analysis (EDA) and generate reports to support business decisions.
- Develop dashboards and visualizations using tools like Power BI, Tableau, or Excel.
- Assist in identifying trends, patterns, and insights in operational and financial data.
- Support predictive modeling and forecasting activities under senior guidance.
- Collaborate with operations, finance, and strategy teams to understand business needs and translate them into analytical solutions.
- Ensure data quality and integrity across systems.
- Prepare regular and ad-hoc reports for management reviews.
- Stay updated with industry trends, particularly within the energy and power distribution sectors.

Requirements:

- 2+ years of professional experience as a Data Analyst, Business Analyst, or in a similar role.
- Exposure to the power sector, utilities, or infrastructure industries is preferred.
- Strong understanding of data analysis concepts and practices.
- Proficiency in Microsoft Excel (pivot tables, lookup functions, etc.).
- Familiarity with data visualization tools like Power BI, Tableau, or equivalent.
- Basic knowledge of SQL for querying databases.
- Ability to work with large datasets and draw actionable insights.
- Good understanding of statistical techniques and/or predictive analytics is a plus.
- Excellent communication and presentation skills.
- Strong attention to detail and a problem-solving mindset.

Qualification:

- Bachelor's degree in Computer Science
- Additional certifications in Data Analytics, Power BI, SQL, or similar tools will be an advantage.
- Exposure to asset management, operational data, regulatory reporting, or energy analytics will be an advantage.
- Programming knowledge (Python, R) would be an added advantage but not mandatory.
- Ability to handle multiple tasks and meet tight deadlines in a fast-paced environment.

Note: Interested candidates can mail their CV to sunil.sharma@thesaicomputers.com with the subject as <Role Name | Candidate Name>
