

**Job Title:** Full Stack Developer

**Location:** Meerut

**Job Type:** Full Time

Sai Computers Limited (SCL) is a leading consulting firm specializing in the power sector, providing innovative solutions and strategic insights to clients across different utilities in India. At SCL, with a steadfast commitment to innovation and excellence and a commitment to leverage data-driven approaches we differentiate ourselves through our relentless pursuit of excellence and our unwavering dedication to our clients' success. With more than 40 years of experience, offices in 100+ cities, our 2500+ team members of industry experts, data scientists, and engineers and field executives work tirelessly to develop and deploy innovative solutions to empower energy companies, utilities, and policymakers to navigate the complexities of the modern energy landscape with confidence and clarity.

SCL Focus areas are:

- Input Based Distribution Franchisee
- Advanced Analytics
- Digital Products
- Operations

**Role Description:**

We are looking for a talented and detail-oriented **Full Stack Developer** with **3–6 years** of experience to join our dynamic team. In this role, you will be responsible for designing, developing, and maintaining scalable web applications. You will work on both the front-end and back-end, ensuring seamless integration, robust functionality, and a superior user experience. If you are passionate about coding, eager to take ownership of projects, and enjoy working in a collaborative environment, we would love to meet you!

Selected candidate's day-to-day responsibilities include:

- Develop, test, and deploy high-quality web applications end-to-end.
- Design and implement front-end components using modern frameworks (React, Angular, or Vue.js).
- Build robust server-side APIs and business logic (Node.js, Python, Java, or .NET).
- Collaborate with UI/UX designers to transform designs into functional products.
- Optimize applications for maximum speed, scalability, and security.
- Write clean, maintainable, and efficient code following best practices.
- Participate in code reviews, architecture discussions, and sprint planning sessions.
- Troubleshoot, debug, and upgrade existing applications.
- Work closely with cross-functional teams to define and refine project requirements.

#### Requirements:

- **Experience:** 3–6 years as a Full Stack Developer or in a similar role.
- **Front-end skills:** Strong proficiency with HTML5, CSS3, JavaScript (ES6+), and responsive design.
- **Front-end frameworks:** Hands-on experience with React.js, Angular, or Vue.js.
- **Back-end skills:** Proficiency in Node.js, Python (Django/Flask), Java (Spring Boot), or .NET Core.
- **Database knowledge:** Experience with relational databases (MySQL, PostgreSQL) and NoSQL (MongoDB, Redis).
- **API Development:** Experience building and consuming RESTful APIs and/or GraphQL.
- **Version Control:** Proficient with Git and modern DevOps practices.
- **Cloud exposure:** Knowledge of AWS, Azure, or GCP (preferred).
- **Testing:** Familiarity with unit testing, integration testing, and tools like Jest, Mocha, or Selenium.
- **Other tools:** Familiarity with CI/CD pipelines, Docker, Kubernetes (plus).

**Note:** Interested candidates can mail their CV to [sunil.sharma@thesaicomputers.com](mailto:sunil.sharma@thesaicomputers.com) with the subject as <Role Name | Candidate Name>
